

Appl. No. 10/800,945

Amdt. dated June 30, 2006

Reply to Office action of June 15, 2006

**REMARKS/ARGUMENTS**

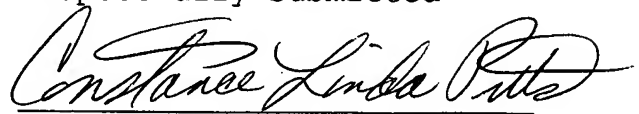

The specifications have been amended to correct minor editorial problems and to remove prior art as now required by the examiner. No new matter has been added.

Examiner's reference to prior art of Clements US 4,589,569 and Bryant US 2,640,337 are respectfully rejected by applicant. These patents do not contain an auxiliary hole that is of the design and location necessary to act as a cooling air flow hole. They simply are drain and vent holes.

In response to the examiner's rejection of claims 1-6: Claims 1-4 have been amended for this application to more accurately reflect what I claim as my invention. Claims 5-6 have been canceled.

Applicant respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted

A handwritten signature in cursive script, reading "Constance Linda Pitts". The signature is written in dark ink and is positioned above the printed name.

CONSTANCE LINDA PITTS
